REMARKS

Claims 7 and 21-24 were pending in the subject application. Claims 21-24 have been canceled to expedite prosecution, claim 7 has been amended, and new claims 25-122 have been added hereinabove. Accordingly, claims 7 and 25-122 are pending in the subject application.

Reconsideration is requested in view of the above amendments and following remarks. As suggested in the Office Action, claim 7 has been amended to delete the phrase ", and salts, esters, optically active forms and racemates which can be metabolized *in vivo* to yield the corresponding compound of formula (I)." New claims 25-122 correspond to canceled claims 23 and 24 in which each species previously recited in a Markush group is claimed individually. Specifically, claims 25-89 claim the species recited in canceled claim 23 and claims 90-122 claim the species recited in canceled claim 24. These newly presented claims raise no issue of new matter and do not necessitate any further search by the Patent Office. Since this amendment places the
